Provides for specific uses for the Atchafalaya Basin Conservation Fund

Present constitution allocates 50% (up to \$10 million per year) of the severance taxes and royalty receipts from state lands in the Atchafalaya Basin into the Atchafalaya Basin Conservation Fund when forecasted severance tax collections exceed FY 09 actual collections. These provisions become effective April 1, 2012. Present law specifies how monies appropriated from the fund shall be used. Proposed law retains present law and further provides that of funds received from the severance tax dedication, a minimum of five percent shall be set aside until the total amount reaches \$10 million for the department to purchase land, or rights, or servitudes, from willing sellers, to improve water quality, access, or other projects consistent with the Atchafalaya Basin Master Plan. Annual set asides shall be used to replenish funds used to make qualifying purchases, with such set-asides not to exceed \$10 million. Willing sellers shall be permitted to avail themselves of the applicable provisions of present law regarding mineral rights. The secretary shall seek from the US Army Corps of Engineers credit towards any funding matching requirement for the Atchafalaya Basin Floodway System, Louisiana Project equal to the value of the property or right thereof.

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

The proposed legislation allocates a minimum of 5% of funds until the total reaches \$10 million received from the dedication of severance taxes and royalties on state lands in the Atchafalaya Basin for the Department of Natural Resources to purchase land located within the Basin to improve water quality, access, or other projects consistent with the Atchafalaya Basin Master Plan.

Under current projections of severance taxes, the dedication provided in Article VII, Section 4(D)(4) is not expected to occur within the current projection horizon through FY16. At the point that this dedication begins to occur, up to \$10 million per year can be allocated to the Atchafalaya Basin Conservation Fund. Of that annual amount, 5% or \$500,000 per year will be set aside each year for the purchase of land, rights, or servitude .
